INSTRUCTED BY RIOS

\$199 per student

Do you wonder what happens when that large drug load gets past the interdiction officers? What does a high-level drug deal look like? In this course, you can see it from the eyes of an undercover officer. If you are currently an undercover officer, an officer who is curious or striving to one day become an undercover officer, or a case agents or supervisor who is looking to utilize an undercover officer, then this course will change the course of your career. This course will explain the life of an undercover officer by a current and active undercover officer who has been a case agent and undercover officer for cases ranging from local inner-city gangs to Transnational Mexican and Dominican Drug Trafficking Organizations. You will leave this Street Cop class with the knowledge and capabilities to fully utilize your undercover operations and witness firsthand what an upper-level drug deal looks like.

Throughout this course, attendees will learn how to think like a criminal, how to avoid the common mistakes undercover officers often make, and how to handle the stress that comes with working as an undercover officer. Instructor Rios will share his experience working in the undercover capacity at the local, state and federal level, and show real life undercover videos. Rios will explain details for case agents and supervisors on when to utilize an undercover officer and when to use officers in different investigations.
